

TECHNOLOGY

Our AquaTrax personal watercraft are powered by a purpose-built, 4-cylinder, 4-stroke marine power plant. The F-12 produces 137hp and the F-12X makes a staggering 165hp. More than 40 years of saltwater/marine experience and technology have gone into the design and coatings of the components. Our outboards have the reputation of being the most durable in any marine environment.

After many years of research and development, and studying and testing hull hydrodynamics, Honda created a hull design that provides excellent overall stability and exceptional high-speed turning performance, without sacrificing the ability to perform low-speed manoeuvres.

The AquaTrax also features a selectable limit mode, which gives the owner the ability to limit the speed, and for those who appreciate detail, the AquaTrax comes with a programmable electronic keyless ignition for better security. Honda's ongoing efforts in research and development play a central role in creating original, innovative products that meet the expectations of customers & environmental needs of society.

THE ENVIRONMENT

At Honda, we believe in performance and leadership, and that's why we're taking a leadership position when it comes to the environment. We continue to develop low-emission technologies for our current and future personal watercraft, ATVs, motorcycles and scooters. Our personal watercraft models exceed the stringent EPA emissions requirements.

We are constantly improving the efficiency with which the company uses energy and other natural resources, reducing harmful emissions and increasing the fuel efficiency of our products, as well as creating green factories to help the world's environmental problems. That's the kind of performance everybody can appreciate.

WE APPRECIATE & SUPPORT ALL OF OUR CUSTOMERS

HONDA RIDERS CLUB OF AUSTRALIA

All new personal watercraft customers will also receive a free 12 month membership to the Honda Riders Club of Australia (HRCA). As a HRCA member, you will have the opportunity to join hundreds of other Honda club members at related events and club days, as well as other exciting club functions around the country. You will receive the RedRiders magazine by keeping you up to date on HRCA events and news.

HMFS

HondaLoan is the right choice for individuals! HondaLoan can help you enjoy the experience of owning a Honda by structuring a competitive loan package that can include everything you need. Insurance, on-road costs and accessories can be included in one easy monthly payment.

Plus, payments are made electronically, so it's convenient to pay! HondaLoan can offer a range of flexible payment terms from 24 months to 60 months. Check with your dealer for a quotation on the Honda package you want. You may be surprised at what you can actually afford!

BE A RESPONSIBLE RIDER

Personal watercraft (PWC) are just another form of powerboat, and are generally subject to similar regulations and laws. However, there are also some special rules that apply to the use of these craft. PWC are much more manoeuvrable than traditional power boats, have different handling characteristics and when used carelessly they can present a danger and nuisance to both the operator and to other people using the waterways.

In most states, PWC users require a PWC Operator's Licence, and we suggest that you attend a boating safety course. Honda also suggests that you wear all appropriate safety gear, & read your owner's manual and all instruction material carefully before heading out. Whenever you ride, please respect the beaches and the waterways. We should all work to preserve our future riding opportunities by showing respect for the environment & the rights of everyone on the water.

F-12X GPS

MODEL ID ARX1200T3D
ENGINE 1235CC LIQUID-COOLED DRY-SUMP IN-LINE FOUR-CYLINDER WITH INTERCOOLED TURBOCHARGER

BORE AND STROKE 79.0MM X 63.0MM

COMPRESSION RATIO 9.5:1

OUTPUT RATIO 121.4 KW (165HP) @ 6,100RPM

VALVE TRAIN 4 STROKE, DOHC, FOUR VALVES PER CYLINDER

CARBURATION PGM-FI WITH AUTOMATIC ENRICHENR CIRCUIT

IGNITION COMPUTER-CONTROLLED DIGITAL WITH THREE-DIMENSIONAL MAPPING

TRANSMISSION DIRECT SHAFT-DRIVE W/ REVERSE

LENGTH 1938 MM

WIDTH 1245 MM

HEIGHT 1059 MM

DRY WEIGHT 362 KGS

FUEL CAPACITY 62.8 LITRES WITH LOW FUEL WARNING

PUMP AXIAL-FLOW SINGLE-STAGE 155.0MM JET PUMP WITH REVERSE, 3 BLADE STAINLESS STEEL IMPELLER

HULL FIBERGLASS REINFORCED PLASTIC (FRP) OUTER HULL, INNER HULL AND DECK

STORAGE CAPACITY 97 LITRES

SEAT LENGTH 1085 MM

EMISSIONS CERTIFIED TO MEET ALL CURRENT CARB AND EPA PERSONAL WATERCRAFT EMISSION STANDARDS.

AVAILABLE COLOURS BLACK HULL W/ CANDY RED UPPER DECK

ACCESSORIES BLACK HULL W/ BRIGHT BLUE UPPER DECK
PWC COVER

F-12X

MODEL ID ARX1200T3

ENGINE 1235CC LIQUID-COOLED DRY-SUMP IN-LINE FOUR-CYLINDER WITH INTERCOOLED TURBOCHARGER

GENUINE ACCESSORIES

The new AquaTrax has several exciting Honda Genuine Accessories available and many more on the way. Be sure to ask your Honda Dealer about our range of products.

HONDA
The Power of Dreams

AQUATRA

THE POWER OF DREAMS

POWER YOUR DREAMS

Freedom, the call of the ocean, the river, the lake and the purity that surrounds them. Sometimes they can challenge you and other times you find yourself entranced by the stillness. The AquaTrax completes your personal quest to rediscover some of the world's true wonders.

The AquaTrax journey begins with the heart and soul of the rider; it will power your dreams & take you to places you've only imagined - both mentally and physically. The adventures are limitless and the scintillating feel of speed and precision is exhilarating, coupled with the spray of water on your face - you literally feel removed from any pressures.

The new range of AquaTrax has been designed with one, two and three passengers in mind. So whether you're an individual adrenaline thrill seeker or a parent wanting to satisfy themselves and their family on your weekends off, the AquaTrax range has a personal watercraft suited to your needs.

Remove yourself and enjoy nature's gift of water on one of our technologically advanced, marine purpose-built AquaTrax personal watercraft.

POWER PURIFIED

Founded in the 1930s, Honda has become the world's largest engine manufacturer. Our strength derives from the simple fact that each Honda product is designed, engineered and manufactured to be the leader in its field - delivering optimum performance, reliability, economy and world leading emission levels.

Since our foundation, we have been powered by dreams. The ongoing dream is to provide genuine satisfaction to people everywhere. We respect the individual differences in us all that drives our daily endeavour to continue to revolutionise our corporate culture.

Our personal watercraft range is a complete reflection of years of technology research and our ongoing commitment to marine performance and the environment.

F-12X GPS (ARX1200T3D) ULTIMATE LUXURY TOURING

GPScape® model features built-in GPS unit with easy-to-read LCD display. GPScape® is contained within the standard metre assembly and features storage for up to 100 waypoints and a digital compass function indicating travel direction. When travelling or returning to a designated waypoint, GPScape® will tell the rider the distance and direction from present location.

The GPScape® also comes complete with a genuine Honda rear boarding step, which makes it easier to re-board the craft. It's also available as an accessory for F-12X and the F-12.

F-12X (ARX1200T3) ULTIMATE LUXURY TOURING

The true performer, the F-12X turbo-charging offers scintillating performance. It has the broadest performance envelope in the entire industry, with its ability to do it all, one, two or three persons, cruising, sport riding, as well as the capacity to tow a skier or wake-boarder.

The F-12X truly is a remarkable luxury craft, its purpose-built 1235cc marine engine produces 165hp. The hull (through years of research, development and testing) provides excellent overall stability and exceptional high-speed turning performance, without sacrificing its ability to perform low-speed manoeuvres.

F-12 (ARX1200N3) PERFECT FAMILY CRAFT

The F-12 is completely packed for the perfect family adventure. It boasts an engine tuned for performance and can carry up to three people. Although it isn't turbo charged, it can tow a skier or wake boarder making it the most affordable, versatile craft in our line.

Its 137hp, 1235cc engine provides a linear power delivery and the fiberglass sculpted hull design (identical to the F-12 X) offers ultra-responsive handling that makes cruising or carving exhilarating. As with all F12's the storage capacity is excellent, with 97 usable litres, you're sure not to run out of space.

R-12X (ARX1200T2) HIGH PERFORMANCE MUSCLE CRAFT

Thanks to its abundant four-stroke power and race-inspired quick-trim system, Honda's two-seat R-12X delivers performance no other personal watercraft can match. This light weight two-person craft is turbo charged and race bred inspired by Honda's championship winning sport bikes.

Its precise handling comes from its quick-trim system, which is activated by a handlebar mounted lever that lets you fine tune your trim pitch instantly. It provides shear turning in entry and exiting. When you combine the components on Honda's R-12X you get one of the most intense, precise-handling watercraft ever.

R-12 (ARX1200N2) SPORT STANDARD

A powerful normally aspirated engine and a great hull design built for carving - that's the AquaTrax R-12. It's the right choice for anyone looking for one of the most capable, innovative and feature-filled personal watercraft anywhere.

It shares the race-inspired trim system of the R-12X. And like every Honda watercraft, it's loaded with other features that set your Honda apart, no matter where you ride.
